Ubicación	Children's gallery
Nombre	Bell (1)
Medidas	Diámetro 42 cm Borde 0 cm Altura cm Peso aproximado 43 kg
Autor campana	WHITECHAPEL BELL FOUNDRY
Año fundición	1794
Inscripciones, decoraciones	This bell was originally fitted on the 74-gun Vanguard, Nelson's flagship at the battle of the Nile in 1798It was used to ring out the watches throughout the day and night so sailors knew when it was the turn to take over sailing and look-out duties. This means that bells on ships were essentially used to signify events, similarly to how church bells were used.
